

MAMBO

The mambo emerged in Cuba in the 1930s with an infectious rhythm. It quickly became a hallmark of music in nightclubs, especially in New York. There, the wide ruffled sleeves and colorful flared skirts swayed to the beat of the mambo in a spectacle that is captured in our Mambo collection, a revolution in the ceramic industry. Its innovative technology conceals the edges, allows for the combination of shapes and colors, and provides uniformity to the pieces.

El mambo surgió en Cuba en los años 30 con un contagioso ritmo. Rápidamente se convirtió en una música de referencia en las discotecas, especialmente en Nueva York. Allí, las amplias mangas con volantes y las coloridas faldas de vuelo se contoneaban al son del mambo en un espectáculo que refleja nuestra colección Mambo, una revolución en el sector cerámico. Su innovadora tecnología oculta los cantos, permite combinar formas y colores y da uniformidad a las piezas.
